

4995 Assorted Electra Items

for stemware that's brilliant and strong, the choice is crystal clear

Bormioli Rocco is proud to introduce their brand's most technologically-advanced range of stemware and tumblers—the Electra collection. Discover the first range ever to feature Star Glass and XLT Treatment. In addition to the durability and outstanding performance of Star Glass, Bormioli Rocco also launches XLT — Xlasting treatment — with the Electra collection. An innovation created to protect and strengthen the pulled wine glass stem, Electra is more resistant to the most frequent forms of breakage in the hospitality industry including washing, twisting and polishing. It also provides protection against scratches and chafing.

bormioli rocco

ambitiously advanced, crafted to last

With laser-cut thin rims, pulled stem technology, and the new XLT Treatment, Electra offers a wide range of modern and sophisticated stemware for even the most discerning taste. Boasting a dazzling shine and a completely transparent finish, whether hosting a rare wine tasting or decanting a perfectly paired vintage, Bormioli Rocco's elegant design provides the ultimate complement. The XLT treatment is guaranteed to last the lifetime of the product and will not wear with time.

8 1/4" x 7 1/8" x 2 1/2" x 3 7/8"

XLT TREATMENT NEW

Electra incorporates something Bormioli Rocco calls XLT — Xlasting treatment — an innovation created by Bormioli Rocco to protect and strengthen the wine glass stem to enhance the resistance to the most frequent forms of breakage in the hospitality industry including washing, twisting and polishing. Not only does it provide initial protection, it maintains its strength over 250 wash cycles.

STAR GLASS NEW

Star Glass is a new chemical composition that creates glass of unrivaled purity and transparency, yet being eco-friendly because it's completely lead free. Thanks to the total absence of color shading and impurities, Star Glass achieves a level of neutrality that brings style and elegance to the table and allows the color of wines to be perceived without distraction.

Measurements given are: height x max diameter x top diameter x bottom diameter
